CURRICULUM VITAE

Jocelyn A. Ricard

Stanford University School of Medicine
Stanford, CA, USA
ricard@stanford.edu | ricardjocelyn.github.io

EDUCATION

Stanford University School of Medicine 2023 –
Knight-Hennessy Scholar, Quad Fellow
National Science Foundation Graduate Research Fellow; Ford Foundation Predoctoral Fellow
Ph.D. Candidate in Neurosciences
Advisors: Russell Poldrack, PhD and Keith Humphreys, PhD

University of Minnesota, Twin Cities 2016 – 2020
College of Biological Sciences
B.S. in Neuroscience

University of Cape Town, Solidarity & Community-Led Transformation in South Africa 2019 – 2020
Cape Town, South Africa

University of Ghana, Legon, Social Entrepreneurship and Diplomacy in Ghana 2018 – 2019
Accra, Kumasi, and Cape Coast, Ghana

Nansen Dijalog Centar, Young Voices: The Fight for Social Change in Croatia 2018 – 2018
Zagreb, Osijek, Rijeka, Croatia

Vivekananda Institute of Indian Studies, Health & Medicine in a Social & Cultural Context 2017 – 2018
Mysore, India

International Sustainable Development Studies Institute, International Development in Thailand 2017 – 2017
Chiang Mai, Thailand

RESEARCH INTERESTS

Interested in the impact of neighborhood disadvantage (e.g., poverty and crime exposure) on functional brain network topology, while assessing how neuroimaging data exclusion may bias inference and limit generalizability.

HONORS & AWARDS

Quad Fellowship, Institute of International Education 2025
National Science Foundation Graduate Research Fellowship Program (NSF-GRFP) 2025
Society for Biological Psychiatry (SOBP) Travel Award, Austin, TX 2024
New England Journal of Medicine's NuMED Inaugural Program Participant 2023 - 2024
Knight-Hennessy Scholar, Stanford University 2023
Ford Foundation Predoctoral Fellowship, National Academies of Science, Engineering, and Medicine 2023
NSF Fellow: International Summer School on Bio-X, Technical University of Crete, Chania, Greece 2023

Munich Brain Course Award, Ludwig-Maximilians-Universität (LMU), Munich, Germany (*declined*)	2020
President's Emerging Scholars Scholarship, University of Minnesota, Minneapolis, MN	2020
Dean's List, University of Minnesota, Minneapolis, MN	2020
Florence Sinclair Award, University of Minnesota, Minneapolis, MN	2020
Page Education and Service Scholarship, Page Education Foundation, Minneapolis, MN	2016 - 2020
U Promise Award, University of Minnesota, Minneapolis, MN	2016 - 2020
Deans Scholar, College of Biological Sciences, University of Minnesota, Minneapolis, MN	2016 - 2020
Selected Participant, Tom Burnett Leadership Program, University of Minnesota, Minneapolis, MN	2019
Community Health Initiative Scholarship, University of Minnesota, Minneapolis, MN	2018
Tsang and Weatherbee Merit Scholarship in Biology, University of Minnesota, Minneapolis, MN	2018
Dean's List, University of Minnesota, Minneapolis, MN	2018
President's Emerging Scholars Scholarship, University of Minnesota, Minneapolis, MN	2016
Multicultural Civic Engagement Program Scholarship, University of Minnesota, Minneapolis, MN	2016
First Year Scholar, NSSA Louis Stokes Alliance for Minority Participation, Minneapolis, MN	2016

PEER-REVIEWED PUBLICATIONS

1. Dhamala E, Christensen E, Hanson JL, **Ricard JA**, Arcaro N, Bhola S, Wiersch L, Brosch K, Yeo BT, Holmes A, Yip S. (2026) Neuroanatomy Reflects Individual Variability in Impulsivity in Youth. *Molecular Psychiatry*, 1-15. PMID: 41876706; doi: 10.1038/s41380-026-03526-2

2. Chopra S, Cocuzza CV, Lawhead C, **Ricard JA**, Labache L, Patrick LM, Kumar P, Rubenstein A, Moses J, Chen L, Blankenbaker C, Gillis B, Germine LT, Harpaz-Rotem I, Yeo BTT, Baker JT, Holmes AJ (2025). The Transdiagnostic Connectome Project: a richly phenotyped open dataset for advancing the study of brain-behavior relationships in psychiatry. *Scientific Data*. PMID: 40456751; doi: 10.1038/s41597-025-04895-

3. Dhamala E, **Ricard JA**, Uddin LQ, Galea LAM, Jacobs EG, Yip SW, Yeo BTT, Chakravarty MM, Holmes AJ (2025). Considering the interconnected nature of social identities in neuroimaging research. *Nature Neuroscience*. PMID: 39730766; doi: 10.1038/s41593-024-01832-y

4. Chopra S, Dhamala E, Lawhead C, **Ricard JA**, Orchard ER, An L, Chen P, Wulan N, Kumar P, Rubenstein A, Moses J, Chen L, Levi P, Holmes A, Aquino K, Fornito A, Harpaz-Rotem I, Germine LT, Baker JT, Yeo BTT, Holmes AJ (2024). Reliable and generalizable brain-based predictions of cognitive functioning across common psychiatric illness. *Sciences Advances*. 10, eadn1862. PMID: 39504381; doi: 10.1126/sciadv.adn1862

5. **Ricard JA**, Labache L, Segal A, Dhamala E., Cocuzza CV, Jones G, Yip S, Chopra S, Holmes AJ (2024). A shared spatial topography links the functional connectome correlates of cocaine use disorder and dopamine D2/3 receptor densities. *Communications Biology*. 7.1: 1178. PMID: 38045392; doi: 10.1101/2023.11.17.567591

6. Jones GM, **Ricard JA**, & Nock MK (2024). Race and ethnicity moderate the associations between lifetime psilocybin use and past year hypertension. *Frontiers in Psychiatry*. *15*, 1169686. PMID: 38979507; doi: 10.3389/fpsyt.2024.1169686

7. Dhamala E, Ooi LQR, Chen J, **Ricard JA**, Berkeley E, Chopra S, Qu Y, Lawhead C, Yeo BTT, Holmes AJ (2023). Brain-based predictions of psychiatric illness-linked behaviors across sexes. *Biological Psychiatry*. PMID: 37031778, doi: 10.1016/j.biopsych.2023.03.025

8. **Ricard JA**, Parker TC, Dhamala E, Kwasa J, Allsop A, Holmes, AJ (2023). Confronting racially exclusionary practices in the acquisition and analyses of neuroimaging data. *Nature Neuroscience*. 26, 4–11.

PMID: 36564545, doi: 10.1038/s41593-022-01218-y

9. Jones G, **Ricard JA**, Hendricks P, Simonsson O (2022). Associations between MDMA/ecstasy use and physical health in a U.S. population-based survey sample. *Journal of Psychopharmacology*. 36(10):1129-1135. PMID: 36189781, doi: 10.1177/02698811221127318

10. Parker TC, **Ricard JA** (2022). Structural racism in neuroimaging: perspectives and solutions. *The Lancet Psychiatry*. *9*(5), e22. PMID: 35430005, doi: 10.1016/S2215-0366(22)00079-7

11. Jones G, **Ricard JA**, Lipson J, & Nock MK (2022). Associations between classic psychedelics and opioid use disorder in a nationally representative US adult sample. *Scientific Reports*. *12*(1), 1-8. PMID: 35393455, doi: 10.1038/s41598-022-08085-4

12. Williams JR, Meyer RM, **Ricard JA**, Sen R, Young CC, Feroze AH, Greil ME, Barros G, Durfy S, Hanak B, Morton RP, Temkin NR, Barber JK, Mac Donald CL, Chesnut RM (2021). Re-examining decompressive craniectomy medial margin distance from midline as a metric for calculating the risk of post-traumatic hydrocephalus. *Journal of Clinical Neuroscience*. *87*, 125-131. PMID: 33863519, doi: 10.1016/j.jocn.2021.02.025

13. **Ricard JA**, Charles R, Tommee CG, Yohe S, Bell WR, Flanagan ME. (2020). Epstein virus Barr-positive diffuse large B-Cell lymphoma associated with hemophagocytic lymphohistiocytosis. *Journal of Neuropathology & Experimental Neurology*. *79*(8), 915-920. PMID: 32647871, doi: 10.1093/jnen/nlaa061

14. **Ricard JA**, Cramer SW, Charles R, Tommee CG, Le A, Bell WR, Chen CC, Flanagan ME (2019). Infratentorial glioblastoma metastasis to bone. *World Neurosurgery*. *131*, 90-94. PMID: 31356980, doi: 10.1016/j.wneu.2019.07.142

MANUSCRIPTS UNDER REVIEW

1. **Ricard JA**, Poldrack RA, Humphreys K. Retention and data exclusion challenges for representative longitudinal neuroimaging in the understanding of addiction. (preprint: *bioRxiv* doi: 10.1101/2025.09.04.674267).

2. Orchard ER, Murray CL, Wall KM, Levy JCP, Shin JY, Gaebler CG, Hart-Derrick VR, Ayala K, Adodo A, Day MJ, Funaro MC, Guan K, Parker TC, Levy J, **Ricard JA**, Penner F, Yatziv T, Rutherford HJV. Scanning for representation: A scoping review of racial and ethnic diversity in MRI studies of the maternal brain. (preprint: *bioRxiv* preprint 2025.06.20.660240).

3. Castro-Ramirez F, McGuire TC, Al-Suwaidi M, Ricard JR, Chambers K., **Ricard JA**, Herrman F, Gaines C, Nock MK (in preparation). Examining culturally-relevant experiences in self-harm for teens (eCREST): Study protocol and methods for recruiting diverse youth.

INVITED RESEARCH TALKS

1. College on Problems of Drug Dependence (CPDD) 2025 Annual Meeting, Symposium. Addiction NeuroBurst Program: Clarity Through Complexity? Promises and Pitfalls of Computational Neuroimaging in Addiction. New Orleans, LA. (2025, June).
2. Society for Biological Psychiatry, 2025 Annual Meeting, Fireside Panel. Toronto, Canada. (2025, April).

3. Wellcome Centre for Integrative Neuroimaging (WIN) Seminar Series, Oxford University, Nuffield Department of Clinical Neurosciences, virtual talk. (2024, October).
4. National Institutes of Health BRAIN Initiative, Neuroethics Working Group, Bethesda, MD. (2023, July).
5. Black in Neuro Week 2023, #NeuroRacism Journal Club: Meet the Experts, virtual talk. (2023, July).
6. Institute of Neurobiology, Universidad Nacional Autónoma de México. Querétaro, Mexico. (2022, December).

CONFERENCE TALKS

1. **Ricard JA**, Bridgeford E, Humphreys KN, Poldrack RA (to be presented 2026, June). Methodological challenges in retention and data exclusion for longitudinal neuroimaging. Organization of Human Brain Mapping Annual Meeting, Bordeaux, France.

2. Jwa AS, **Ricard JA**, Martinez-Martin N, Poldrack RA (to be presented 2026, April). Neuroimaging-based mind reading: a critical analysis. International Neuroethics Society Annual Meeting, Stanford, CA.

3. **Ricard JA** et al. (2025, June). Addiction NeuroBurst Program: A shared spatial topography links the functional connectome correlates of cocaine use disorder and dopamine $D_{2/3}$ receptor densities. College on Problems of Drug Dependence, New Orleans, LA.

4. **Ricard JA** et al., (2025, April). Systemic disparities in Neuroscience and Psychiatry: Current Perspectives. Society for Biological Psychiatry, Toronto, Canada.

5. Orchard ER, Wall KM, Kelly CL, Levy JCP, Shin JY, Gaebler CG, Hart-Derrick V, Adodo A, Ayala K, Day M, Funaro M, Guan K, Parker TC, **Ricard JA**, Penner F, Yatziv T, & Helena JV, Rutherford HJV (2024, October). Investigating Racial and Ethnic Diversity in MRI Studies of the Maternal Brain: A Scoping Review. International Society for Developmental Psychobiology, Chicago, Illinois.

6. Dhamala E, **Ricard JA**, Christensen E, Garza-Villarreal EA (2024, June). Fostering inclusivity in neuroimaging. Roundtable Co-organizer & Presenter. Organization for Human Brain Mapping, Seoul, South Korea.

7. **Ricard JA**, Labache L, Dhamala E, Jones G, Harnett NG, Yip SW, Chopra S, Holmes AJ (2024, June). Common spatial patterns link network correlates of cocaine use disorder and $D_{2/3}$ receptor densities. Organization for Human Brain Mapping, Seoul, South Korea.

8. **Ricard JA**, Labache L, Dhamala E, Jones G, Harnett NG, Yip SW, Chopra S, Holmes AJ (2024, May). A shared spatial topography links the functional connectome correlates of cocaine use disorder and dopamine $D_{2/3}$ receptor densities. Society for Biological Psychiatry, Austin, Texas.

9. Dhamala E, Ooi LQR, Chen J, **Ricard JA**, Berkeley E, Chopra S, Qu Y, Lawhead C, Yeo BTT, Holmes AJ (2023, July). Shared functional connections predict distinct psychiatric illness-linked behaviors across the sexes. Organization for Human Brain Mapping, Montreal, Canada.

10. **Ricard JA**, Labache L, Chopra S, Dhamala E, Jones G, Harnett NG, Yip SW, Holmes AJ (2023, April). The neural underpinnings of cocaine use disorder, Society for Biological Psychiatry, San Diego, California.

11. Chopra S, Dhamala E, Lawhead C, **Ricard JA**, Orchard E, Gillis B, Blankenbaker C, An L, Wulan N, Chen P, Kumar P, Rubenstein A, Moses J, Chen L, Levi P, Holmes A, Aquino K, Fornito A, Harpaz-Rotem I, Germine LT, Baker JT, Yeo BTT, Holmes AJ (2023, April). Reliable and generalizable brain-based predictions of cognitive functioning across common psychiatric illness. Society for Biological Psychiatry, San Diego, California.

12. **Ricard JA**, Labache L, Chopra S, Dhamala E, Harnett NG, Jones G, Yip SW, Holmes AJ (2022, November). The network-level correlates of cocaine use disorder. Society for Neuroscience, San Diego, California.

13. Dhamala E, Ooi LQR, Qu L, **Ricard JA**, Berkeley E, Yeo BTT, Holmes AJ (2022, November). Shared functional networks underlie distinct psychiatric behaviors across the sexes. Society for Neuroscience, San Diego, California.

14. Jones G, **Ricard JA**, Lipson J, Nock MK (2022, September). Associations between classic psychedelics and opioid use disorder in a nationally representative US adult sample. Society for Research in Psychopathology, virtual presentation.

15. Chopra S, Lawhead C, **Ricard JA**, Gillis B, Blankenbaker C, An L, Wulan N, Chen P, Fairbank-Haynes K, Kumar P, Rubenstein A, Harpaz-Rotem I, Yeo BTT, Baker JT, Holmes AJ (2022, September). Leveraging phenotypic predictive models derived in large-scale datasets to boost brain-behavior predictions in clinical populations. Society for Research in Psychopathology, Philadelphia, Pennsylvania.

16. **Ricard JA**, Lawhead C, Chopra S, Gillis B, Chen L, Moses J, Blankenbaker C, Tao J, Fairbank-Haynes K, Kumar P, Rubenstein A, Harpaz-Rotem I, Yeo BTT, Baker JT, Holmes AJ (2022, September). Characterizing functioning connectomes across affective and psychotic illness. Society for Research in Psychopathology, Philadelphia, Pennsylvania. *Indicates co-first author

17. Jones G, **Ricard JA**, Lipson J, Nock MK (2022, August). Associations between classic psychedelics and opioid use disorder in a nationally representative US adult sample. American Psychological Association, virtual presentation.

18. Lawhead, C, **Ricard JA**, Chopra S, Gillis B, Chen L, Moses J, Blankenbaker C, Tao J, Fairbank-Haynes K, Kumar P, Rubenstein A, Harpaz-Rotem I, Yeo BTT, Baker JT, Holmes AJ (2022, July). Developing an understanding of the functional connectomics of affective and psychotic illness. CPC++: Computational Psychiatry Conference, New York City, New York.

19. Lawhead C, **Ricard JA,** Chopra S, Chen L, Moses J, Blankenbaker C, Tao J, Fairbank-Haynes K, Kumar P, Rubenstein A, Harpaz-Rotem I, Yeo BTT, Baker JT, Holmes, AJ (2022, April) Toward an understanding of the functional connectomics of affective and psychotic illness. Society for Biological Psychiatry (SOBP) Conference, New Orleans, Louisiana.

20. Jones G, **Ricard JA**, Lipson J, Nock MK (2022, June). Associations between classic psychedelics and opioid use disorder in a nationally representative US adult sample. Mind & Life Summer Research Institute, virtual presentation.

21. Guercio G, Kohler L, **Ricard JA**, Santosa H, Vinogradov S (2020, April). Differential involvement of DLPFC and MPFC during encoding and retrieval of self-referential information: A functional near-infrared spectroscopy (fNIRS) study. Society for Biological Psychiatry (SOBP) Conference, virtual presentation.

22. **Ricard JA**, Tommee CG, Cramer SW, Charles R, Le A, Bell WR, Chen CC, Flanagan ME (2019 December). Osseous Spine Metastasis of Infratentorial GBM Neoplasm, University of Minnesota Annual Meeting for the Board of Regents and President, Minneapolis, Minnesota.

23. **Ricard JA**, Lieberman S, Rivera DA, Falkenhain K, Bracko O, Schaffer CB, Nishimura N (2019, November). Restoration of Blood Flow Decreases Epileptiform Activity in a Mouse Model of Alzheimer's Disease. Annual Biomedical Research Conference for Minority Students (ABRCMS), Anaheim, California.

24. **Ricard JA**, Lieberman S, Rivera DA, Falkenhain K, Bracko O, Schaffer CB, Nishimura N (2019, August). Restoration of Blood Flow Decreases Epileptiform Activity in a Mouse Model of Alzheimer's Disease. Cornell University, Diversity Summer Research Symposium, Ithaca, New York.

25. **Ricard JA**, Tommee CG, Cramer SW, Charles R, Le A, Bell WR, Chen CC, Flanagan ME (2019, June). Infratentorial Glioblastoma Metastasis to Bone. American Associations of Neuropathologists (AANP) Annual Meeting, Atlanta, Georgia.

26. Tommee CG, **Ricard JA**, Charles R, Yohe S, Bell WR, Flanagan ME (2019, June). Epstein Virus Barr positive Diffuse Large B-cell Lymphoma in the CNS associated with Hemophagocytic Lymphohistiocytosis. American Associations of Neuropathologists (AANP) Annual Meeting, Atlanta, Georgia.

27. **Ricard JA**, Le A, Hemmy L, Flanagan ME (2019, April). Pathologic TDP-43 in Centenarians in the Nun Study. New England Science Symposium, Harvard University Medical School, Boston, Massachusetts.

28. Williams JR, Meyer RM, **Ricard JA**, & Chesnut RM (2018, October). Decreased Distance from Midline in Decompressive Craniectomy Predicts Development of Hydrocephalus. Congress of Neurological Surgeons, Houston, Texas.

29. **Ricard JA**, Le A, Hemmy L, Flanagan ME (2018, August). Neuropathologic Features of Centenarians in the Nun Study. Clinical and Translational Science Institute (CTSI) Annual Poster Session at Surly Brewing Company, Minneapolis, Minnesota.

30. **Ricard JA**, Langer E, Spector L (2018, February). The Effect of Candidate Gene CTNNB1 on Hepatoblastoma. Emerging Researchers National (ERN) Conference in STEM, Washington, District of Columbia.

31. **Ricard JA**, Langer E, Spector L (2017, August). The Effect of Candidate Gene CTNNB1 on Hepatoblastoma. Multicultural Summer Research Opportunities Program Symposium, University of Minnesota, Minneapolis, Minnesota.

RESEARCH GRANTS

Undergraduate Research Opportunities Program (UROP) Research Grant 2020
Submission: The use of functional near-infrared spectroscopy to analyze potential differences in brain activity between users and non-users of cannabis
Role: Principal Investigator (Faculty Sponsor: Dr. Sophia Vinogradov)
Amount Awarded: $1,800

North Star STEM Alliance, Louis Stokes Alliance for Minority Participation Travel Grant 2019

Annual Biomedical Research Conference for Minoritized Scientists
Role: Principal Investigator (Faculty Sponsor: Dr. Margaret E. Flanagan)
Amount Awarded: $1000

Cornell University Diversity Programs in Engineering Research Grant 2019
Submission: Restoration of blood flow decreases epileptiform activity in a mouse model of Alzheimer's disease
Role: Principal Investigator (Faculty Sponsor: Dr. Nozomi Nishimura)
Amount Awarded: $4,000

North Star STEM Alliance, Louis Stokes Alliance for Minority Participation Travel Grant 2019
New England Science Symposium
University of Minnesota, Minneapolis, MN
Amount Awarded: $1000

North Star STEM Alliance, Louis Stokes Alliance for Minority Participation Travel Grant 2019
American Associations of Neuropathologists (AANP) Annual Meeting
Role: Principal Investigator (Faculty Sponsor: Dr. Margaret E. Flanagan)
Amount Awarded: $1000

University of Minnesota Pathways to Research Program Grant 2018
Submission: Pathologic TDP-43 in centenarians of the Nun Study
Role: Principal Investigator (Faculty Sponsor: Dr. Margaret E. Flanagan)
Amount Awarded: $5,760

University of Minnesota Undergraduate Research Opportunities Program Research Grant 2018
Submission: Sensitivity of detection of pathologic TDP-43 protein
Role: Principal Investigator (Faculty Sponsor: Dr. Margaret E. Flanagan)
Amount Awarded: $1,800

North Star STEM Alliance, Louis Stokes Alliance for Minority Participation Travel Grant 2018
Emerging Researchers National Conference in Science, Technology, Engineering and Mathematics
Role: Principal Investigator (Faculty Sponsor: Dr. Logan Spector)
Amount Awarded: $1000

University of Minnesota Multicultural Summer Research Opportunities Program Grant 2017
Submission: The effect of candidate gene CTNNB1 on Hepatoblastoma
Role: Principal Investigator (Faculty Sponsor: Dr. Logan Spector)
Amount Awarded: $4,000

International Undergraduate Research Opportunities Program Research Grant 2017
Submission: The effect of cosmetic medical tourism on development in Chiang Mai, Thailand
Role: Principal Investigator (Faculty Sponsor: Dr. Mark Ritchie)
Amount Awarded: $2,500

RESEARCH EXPERIENCE

Research Assistant 2021 - 2023
Yale University, New Haven, CT

Dr. Avram Holmes, Department of Psychology and Psychiatry
Research Focus: *Functional network organization of the human connectome in psychiatric illness*

Research Assistant 2020 - 2021
Deutsches Zentrum für Neurodegenerative Erkrankungen, Berlin, DE
Dr. Silvia Viana Da Silva, Department of Neuroscience
Research Focus: *Neuronal network oscillations and cognitive function*

Research Assistant 2018 - 2020
University of Minnesota, Minneapolis, MN
Dr. Sophia Vinogradov, Department of Psychiatry and Behavioral Sciences
Research Focus: *Neural mechanisms of differentiating internal and external stimuli using fNIRS*

Research Assistant 2019 - 2019
Cornell University, Ithaca, NY
Drs. Chris Schaffer and Nozomi Nishimura, Department of Biomedical Engineering
Research Focus: *Restoration of blood flow's impact on epileptiform activity in Alzheimer's disease*

Research Assistant 2017 - 2019
University of Minnesota, Minneapolis, MN
Dr. Margaret E. Flanagan, Department of Pathology
Research Focus: *Sensitivity of detection of neuropathological features in post-mortem human centenarian brains*

Research Assistant 2017 - 2017
University of Minnesota, Minneapolis, MN
Dr. Logan Spector, Department of Pediatrics, Division of Epidemiology
Research Focus: *Genetic variation underlying hepatoblastoma cellular biology*

Research Assistant 2017 - 2017
International Sustainable Development Studies Institute, Chiang Mai, Thailand
Dr. Mark Ritchie, International Sustainable Development Studies Institute
Research Focus: *Cosmetic medical tourism and development in Chiang Mai, Thailand*

TEACHING EXPERIENCE

Teaching Fellow, Stanford Jail and Prison Education Program (SJPEP) Winter 2026
Collective Inquiry
County Jail #2, San Francisco, CA

Teaching Fellow, Stanford Jail and Prison Education Program (SJPEP) Fall 2025
The Production of Knowledge: Introduction to Research
County Jail #3, San Bruno, CA

Teaching Fellow, Stanford Jail and Prison Education Program (SJPEP) Spring 2025
Scientific Inquiry into Expression, Adaptation & Transformation in Abnormal Conditions
County Jail #3, San Bruno, CA

SERVICE & LEADERSHIP

Peer Mentor, FLISci	2024 - 2025
Peer Mentor, Reality Changers, San Diego, CA (remote)	2023 - 2024
Co-Founder and Chair for Advocacy and DEI, Yale Postgraduate Association, New Haven, CT	2021 - 2022
Panelist, Yale Summer Enrichment Research Experience: Pathways in Science, New Haven, CT	2022
Research Coordinator and Assistant, Office of Undergraduate Research, Minneapolis, MN	2018 - 2020
Scholar, Minnesota Future Doctors, Minneapolis, MN	2018 - 2020
Peer Mentor, Louis Stokes Alliance for Minority Participation, Minneapolis, MN	2017 - 2020
Dean Scholar, College of Biological Sciences, Minneapolis, MN	2016 - 2020
Graduate Prep Scholar, Louis Stokes Alliance for Minority Participation, Minneapolis, MN	2019
Hospice Volunteer, Allina Health Hospice and Palliative Care, Minneapolis, MN	2019
Assistant Program Leader, University of Minnesota Learning Abroad Center, Reykjavik, Iceland	2019
Co-founder and Vice President, President's Emerging Scholars Student Board, Minneapolis, MN	2017 - 2018
First Year Prep Scholar, Louis Stokes Alliance for Minority Participation, Minneapolis, MN	2016 - 2017

PROFESSIONAL DEVELOPMENT AND TRAINING

Neurohackademy, University of Washington eScience Institute, virtual. July 28th- August 9th, 2025.
BIO-X School on Data Science and Engineering in Medicine and Biology, Chania, Greece. June 4th – 10th, 2023.
Functional MRI Workshop MGH Martinos Center, virtual. October 17th – 21st, 2022.
Neuroimaging, Neuroscience, Neuro-oncology International Summer School, Lipari, Italy. June 4th – 9th, 2022.

PROFESSIONAL MEMBERSHIPS

Society for Biological Psychiatry (SOBP)
Organization for Human Brain Mapping (OHBM)

SELECTED NEWS

1. Rocheleau, J. (2023). Neuroscience has a race problem. Nautilus.
2. Gardner, C. (2022). Confronting racially exclusionary practices in the acquisition and analyses of neuroimaging data. Yale School of Medicine.
3. Law, T. (2022). Psilocybin could be a therapeutic breakthrough for addiction. Time.
